TOP COAT - GLOSSY ELASTIK

Additional Information

Description:

Leaves a thin glossy layer on your work. As it is thinner, it also lasts longer. Being the gloss with the most static electricity, it is recommended for use with powders such as mirror or unicorn. Provides extra shine to nails that remains until maintenance.

Risks and Precautions:

For professional use only.

Avoid contact with skin and eyes.

Discontinue use if irritation occurs.

In case of contact with eyes, rinse thoroughly with water.

Keep out of reach of children.

Directions for Use: Brush onto gel or acrylic nails and cure under UV lamp for 2 minutes or LED lamp for 1 minute. Times may vary depending on the devices/lamps used and their power. Do not touch the surface for approximately 1 minute after curing. The dispersion layer does not need to be removed. For other uses, consult HN Hit Nails.

Tip: For even greater durability, let the product cool for 20 seconds before applying cuticle oil or touching the nails.

Note: The product is sensitive to UV radiation. Do not expose to sunlight or UV light.

Ingredients: Ethoxylated trimethylolpropane triacrylate, Urethane acrylates oligomer, Pentaerythritol Tetrakis(3-mercaptopropionate), Methyl benzoylformate, Dimethicone, Ethyl Phenyl(2,4,6-Trimethylbenzoyl)phosphinate, p-Hydroxyanisole, CI 60725.

Capacity: 10ml
